## CIRCULAR

This is to inform to all IV B. Pharmacy students that A Two Week Certificate Programme on “Analytical development and stability testing” by Mr. K. Raju, is scheduled to conduct in our college Lecture hall-5 (Room No.30) from 17 / 06 / 2019 to 02 / 07 / 2019. All the students are instructed to enrol their names with programme coordinator on or before 15 / 06 / 2019.

**Programme Co-ordinator:** Mrs. E. Jajili,  
Assistant Professor ,

### About the Institute

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever - increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology – 18 seats, Pharmacology -18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

### About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures.

### About the Programme

- To provide evidence how the environmental factors changes quality of the product with time.
- To give an idea about the need of developing new analytical techniques for the drug products.
- To learn about stability studies and its importance in method development and validation

### Objective of the Programme

- To provide evidence on how the quality of an API or drug product changes with time under the influence of various environmental factors.
- To produce data that demonstrates whether any physical, chemical, or microbiological changes affect the efficiency & integrity of a pharmaceutical product.

### Topics to be Covered

- Introduction to stability testing
- Stability study in analytical chemistry
- Types of stability
- Quality control stability testing
- Methods are accelerated in stability testing
- How do you analyze stability
- Stability protocol
- GMP stability testing
- ICH guideline content stability testing
- What is stability in validation,
- basic principles of stability
- Stability  $V_s$  reliability testing
- Methods of stability analysis,
- Limits in stability test

## PROGRAMME REPORT

**Name of the Programme:** "A TWO-WEEK CERTIFICATE PROGRAMME ON ANALYTICAL DEVELOPMENT & STABILITY TESTING"

**Date:** 17 / 06 / 2019 to 02 / 07 / 2019.

**Resource Person:** Mr. K Raju,  
Assistant professor,  
Department of pharmaceutical chemistry,  
Shri Vishnu College of Pharmacy.  
Bhimavaram.  
Phone no.: 9676681850  
Email ID : jnvraju@gmail.com

**Name of the Co-ordinator:** Mrs. E, Jajili,  
Assistant Professor,  
Dept. of Pharmaceutical Analysis.

**Number of students attended:** 60 ( IV YEAR B.PHARM )

**Venue:** Lecture hall-5 (Room No.30). Sir C. R. Reddy College Of Pharmaceutical Sciences.

### **Objectives:**

- To provide evidence on how the quality of an API or drug product changes with time under the influence of various environmental factors.
- To produce data that demonstrates whether any physical, chemical, or microbiological changes affect the efficiency & integrity of a pharmaceutical product.

### **Topics covered:**

- Stability study in analytical chemistry
- Methods are accelerated in stability testing
- GMP stability testing
- ICH guideline content stability testing

### **Learning outcomes:**

- It enables the students to determine shelf life & storage conditions for the development of a new product.
- Understand the need of developing new analytical methods and the importance of stability testing in maintaining the quality of a drug substance or drug product.
- It explains the current trends in performing forced degradation studies and also describes the analytical methods helpful for the development of stability-indicating methods.

### About the Institute

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever - increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology – 18 seats, Pharmacology -18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

### About the Department

The Department of Pharmaceutics was established in 2011 with equipments like Tablet punching machine, Dissolution apparatus, Orbital shaking incubator, 8-Basket dissolution apparatus, Brookfield Viscometer, Hot air Oven, Stability chamber, Disintegration apparatus. The major apparitions for the Department are to inculcate how the me-too active pharmaceutical ingredients can be converted into outcome-oriented as well as patient-friendly end user formulations.

The basic knowledge about pharmaceutical technology and the proper way to get patent for their innovative ideas are the additional unique features of the program blended with the presence of highly-reputed faculty members with vast experience

### About the Programme

- To know about the importance of enhancing the solubility, how it influences the therapeutic efficacy of the drug.
- To learn about various types of solubility enhancement techniques.
- To give an idea about the relationship between solubility and bio-availability.

### Objective of the Programme

- To know the importance of enhancing the solubility of the drug as it effects the bioavailability of the drug for achieving therapeutic effect in human body.
- To give an idea by using various approaches like physical, chemical & different techniques for solubility enhancement to improve the solubilisation and bioavailability of poorly soluble drugs.

### Topics to be Covered

- Introduction to drug design and dosage formulations
- Introduction to Active Pharmaceutical ingredient
- Importance of dosage formulations
- What is solubility and solubility enhancement
- Solubility enhancement techniques
- Precipitation Method
- Lipid emulsion/micro emulsion template Nanojet technology
- Homogenization in Non aqueous Media (Nano pure)
- Modifications to enhance drug solubility
- Impact of solubility on bioavailability and bioequivalence studies

## PROGRAMME REPORT

**Name of the Programme:** "A TWO WEEK CERTIFICATE PROGRAMME ON FORMULATION APPROACHES TO ENHANCE DRUG SOLUBILITY"

**Date:** 13 / 08 / 2019 to 27 / 08 / 2019.

**Resource Person:** V Jyothi krishna

Dept. of Pharmaceutics,  
Lydia college of Pharmacy,  
Ravulapalem.  
Phone number: 6301226713  
Email ID : Krishna.rashguy@gmail.com

**Name of the Co-ordinator:** Mrs. Ch. Amulya

Assistant Professor,  
Dept. of Pharmaceutics.

**Number of students attended:** 60 ( III YEAR B.PHARM )

**Venue:** Lecture hall-3 (Room. No. 27), Sir C. R. Reddy college of pharmaceutical Sciences.

### **Objectives:**

- To know the importance of enhancing the solubility of the drug as it effects the bioavailability of the drug for achieving therapeutic effect in human body.
- To give an idea by using various approaches like physical, chemical & different techniques for solubility enhancement to improve the solubilisation and bioavailability of poorly soluble drugs.

### **Topics covered:**

- Introduction to drug design and dosage formulations
- Introduction to Active Pharmaceutical ingredient
- Importance of dosage formulations
- What is solubility and solubility enhancement
- Solubility enhancement techniques
- Precipitation Method

### **Learning outcomes:**

- Understand the various approaches of solubility enhancement methods which are used individually or in combination.
- Knows the identification of the suitable method for enhancing the solubility of the drugs, dissolution & bioavailability.

### About the Institute

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever - increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology - 18 seats, Pharmacology -18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

### About the Department :

Pharmacology is the science which deals with effect of drugs. The main objective of pharmacology is to provide scientific data for choosing a drug treatment of proven efficacy and safety from the various options available. A wonderful arena for research oriented students is being provided by the well-equipped laboratories with CPCSEA approved animal house facility in our college. The Pharmacology department is engaged in imparting knowledge on various aspects of preclinical and clinical Pharmacology through proper media.

The department goal is to prepare students for productive and successful careers in pharmaceutical industry, academia, research and public sectors.

### About the Programme

- To know about the importance of interventional radiology in diagnosing the diseases.
- To learn about the application of interventional radiology advances in malignant diseases.
- To give an idea about the different types of interventional radiology techniques

### Objective of the Programme

- To explain about the advances in interventional radiology in the treatment of malignant diseases.
- To give a brief knowledge about the various techniques of interventional radiology.
- To give a outline of difference between radiology and interventional radiology

### Topics to be Covered

- Introduction to Interventional Radiology
- Types of Interventional Radiology
- Instruments used in Interventional Radiology
- Embolism techniques & its applications
- Seldinger techniques & its applications
- Interventional Radiology procedures in hepatobiliary system
- Concept on-angioplasty balloons
- Discussion on catheters & stents
- Biopsy needles -introduction & is applications
- RadioFrequency Ablation for bone tumors
- Different imaging machines used in Interventional Radiology
- Different imaging machines used in Interventional Radiology

## PROGRAMME REPORT

**Name of the Programme:** "A TWO WEEK CERTIFICATE PROGRAMME ON SCOPE OF INTERVENTIONAL RADIOLOGY IN MODERN MEDICINE "

**Date:** 23 / 09 / 2019 to 07 / 10 / 2019.

**Resource Person:** Mr. P. Pandu,  
Associate Professor,  
Dept. of Pharmacology,  
Vikas College of pharmacy, Vissannapeta,  
Phone number: 9951494642  
Email ID: puligotipandu@gmail.com

**Name of the Co-ordinator:** Mr. M. Manoj Kumar,  
Assistant Professor,  
Dept. of Pharmacology.

**Number of students attended:** 28 (II Pharm. D )

**Venue:** Mini seminar Hall (Room No. 33, Sir C R Reddy College of Pharmaceutical Sciences.

### **Objectives:**

- To explain about the advances in interventional radiology in the treatment of malignant diseases.
- To give a brief knowledge about the various techniques of interventional radiology.
- To give a outline of difference between radiology and interventional radiology.

### **Topics covered:**

- Introduction to Interventional Radiology.
- Types of Interventional Radiology.
- Instruments used in Interventional Radiology.
- Applications of various technologies use in interventional Radiology.

### **Learning outcomes:**

- Understand the importance of interventional radiologist in diagnosing and the treatment of diseases.
- Applications of most exciting advances in in interventional radiology are in the treatment of malignant diseases.

### About the Institute

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever - increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology – 18 seats, Pharmacology -18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

### About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures.

### About the Programme

- To know about the importance of process validation in cost saving and re-testing of the product in a pharmaceutical industry.
- To learn about various types of process validation techniques.
- To give an idea about how the process validation gives assurance regarding the consistency and safety of the product.

### Objective of the Programme

- To know the importance of validation of manufacturing process in a pharmaceutical industry to ensure product consistency and safety.
- To ensure that a process, system, material, product, methods will meet its intended purpose or allow functioning in a reliable consistent manner

### Topics to be Covered

- Introduction to pharmaceutical process validation
- General Principles and Practices of Process validation
- History and future of validation
- Importance of validation
- Stages of process validation
- FDA guidelines and GMP in Validation
- Process validation in Pharmaceutical industry
- Departments involved in process validation
- Protocol for Validation
- Validation Master Plan(VMP)
- Types of Process validation
- Process validation report
- Qualification and types of qualification

## CERTIFICATE OF PARTICIPATION

This is to Certify that Prof/Dr/Mr/Mrs. ....K.Mounika.....  
of .....1<sup>st</sup> M.Pharm..... has participated in  
A Two Week Certificate Programme on "Recent advances in process validation  
in pharmaceutical analysis" organised by Sir C.R.Reddy College of Pharmaceutical  
Sciences, Eluru from 14/10/2019 to 28/10/2019.

## CIRCULAR

This is to inform to all II B. Pharmacy students that A Two Week Certificate Programme on **“Handling of different analytical equipment”** by **Mr. T.Nagendra kumar**, is scheduled to conduct in our college Lecture hall-3 (Room No. 27) from 06 / 01 / 2020 to 20 / 01 / 2020. All the students are instructed to enrol their names with programme coordinator on or before 04 / 01 / 2020.

### About the Institute

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever - increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology – 18 seats, Pharmacology -18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

### About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures.

### About the Programme

- To know about the importance of different analytical techniques for qualitative and quantitative estimation of the drugs.
- To learn about the handling of HPLC, IR, UV-VISIBLE Spectro photometric techniques.
- To give an idea about the principle and working procedures of various analytical techniques..

### Objective of the Programme

- To analyze the samples qualitatively and quantitatively with improved sensitivity, speed and accuracy.
- To reinforce chemical principles central to analytical chemistry.

### Topics to be Covered

- Introduction of analytical equipments Working & calibration of UV-Visible spectro photometer
- Working of IR spectroscopy
- Principles & working of HPLC
- Working of GAS chromatography & its types
- Mass spectrometry
- Demonstration on flame photo meter
- Working & calibration of UV-Visible spectrophotometer
- Calibration of HPLC
- Demonstration of LC-MS
- Trouble shooting in HPLC
- Trouble shooting in GC
