## About the Institute

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever - increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology - 18 seats, Pharmacology -18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

## About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures

## About the Programme

- Embark on a voyage of statistical expertise through our One-week Faculty Development Program focusing on "Advances in Regression Analysis." Explore intricate regression models and techniques under the guidance of experienced professionals. Unearth the subtleties of predictive modeling, causal connections, and data-informed decision-making. Gain practical, hands-on exposure to implementing advanced regression methodologies. Enhance your teaching and research abilities in this essential statistical field. Participate in an intensive week of education, collaboration, and skill refinement, as we unravel the complexities of regression analysis and its contemporary applications through focused efforts and teamwork.

## Objective of the Programme

- The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing one week faculty Development Program on Advances in Regression Analysis was to make an understanding on the fundamentals of regression analysis and latest advancements as well as its applications in various fields

## Topics

- Basics of testing of hypothesis
- Research applications
- Simple and multiple linear regression
- Problems with regression models and their remedies
- Advancements in regression analysis

**Programme outcomes:**

Sir C.R.Reddy College of Pharmaceutical Sciences has successfully organised a One Week Faculty Development Program on "Advances in Regression Analysis". Upon completion of this Programme the participants have learned the distinguishable difference between dependent and independent variables which can be applied to multiple linear regression analysis.

**Number of participants: 38**

## || About the Institute ||

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever - increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology – 18 seats, Pharmacology -18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

## || About the Department ||

Pharmacology is the science which deals with effect of drugs. The main objective of pharmacology is to provide scientific data for choosing a drug treatment of proven efficacy and safety from the various options available. A wonderful arena for research oriented students is being provided by the well-equipped laboratories with CPCSEA approved animal house facility in our college. The Pharmacology department is engaged in imparting knowledge on various aspects of preclinical and clinical Pharmacology through proper media.

The department goal is to prepare students for productive and successful careers in pharmaceutical industry,

Academia, research and public sectors.

## || About the Programme ||

This program is of paramount importance as it empowers educators with insights into "Preclinical Research Through Innovations and Technology," equipping them to train future researchers adept in cutting-edge methodologies. It bridges the gap between theory and practice, enhancing the quality of preclinical studies. Participants gain hands-on experience with advanced tools, fostering practical skills essential for effective teaching. The program nurtures a network of educators well-versed in modern research techniques, promoting collaboration and knowledge sharing. Ultimately, it ensures faculty remain pioneers in preclinical research, driving innovation and excellence in education.

## || Objectives of the Programme ||

- To impart knowledge on Pre-Clinical evaluation of drugs and to update experimental techniques in the drug discovery and development.
- To understand the maintenance of laboratory animals as per the guide lines
- To get familiar with invitro and invivo preclinical evaluation processes

## || Topics ||

- Pre-clinical drug discovery
- Lab animals in research, ethics and regulations
- Demonstration on laser speckle imaging system

**Programme outcomes:**

Sir C.R.Reddy College of Pharmaceutical Sciences has successfully organised a One Week Faculty Development Program on "Pre-Clinical Research through Innovations and Technology".

- This programme gave a complete overview on the lab animals used during drug discovery process and good laboratory practices in maintenance and handling of experimental animals.
- Appraise the regulations and ethical requirement for the usage of experimental animals.

## CIRCULAR

This is to inform to all the non-teaching staff that Sir C.R. Reddy College Of Pharmaceutical Sciences is conducting faculty training program on "Basic Equipment Used in Pharmaceutical Technology" for non-teaching staff by P.V.S.R. Chandra Shekar, Assistant professor, Department of Pharmaceutics, Sir C.R.Reddy College of Pharmaceutical Sciences on 13-06-2018 at 2:00PM in the seminar hall of our college. This training program aims to provide valuable knowledge and promote a culture of safety among the non-teaching staff involved in laboratory operations. All non-teaching staff members are informed to attend the program.

## PROGRAMME REPORT

Programme: Faculty Training Program on “Basic Equipment Used in Pharmaceutical Technology” for non-teaching staff.

Date: 13-06-2018.

### Details of resource person:

Name : P.V.S.R. Chandra Shekar,  
Designation : Assistant Professor.  
Department : Pharmaceutics.  
Institute : Sir C.R.Reddy College of Pharmaceutical Sciences.  
Email ID : pvsrscs@gmail.com.  
Contact Number : 9490032224.

### **Objectives:**

Sir C.R.Reddy College of Pharmaceutical Sciences organised one day faculty training Program on “Basic Equipment Used in Pharmaceutical Technology” for non-teaching staff. The objective of this program is to familiarize participants with the principles, setup, calibration, maintenance, and safety practices associated with essential equipment in the field. The program aims to enhance participant's knowledge and skills in equipment handling, data analysis, documentation and calibration, enabling them to contribute to efficient and reliable pharmaceutical laboratory operations.

### **Topics covered:**

- Overview of basic equipment used in pharmaceutical technology.
- Functions and purposes of each equipment type.
- Principles of Operation.
- Equipment Setup and Calibration.
- Maintenance and Troubleshooting.

### **Programme outcomes:**

Sir C.R.Reddy College of Pharmaceutical Sciences has successfully organised one day faculty training Program on “Basic Equipment Used in Pharmaceutical Technology” for non-teaching staff.

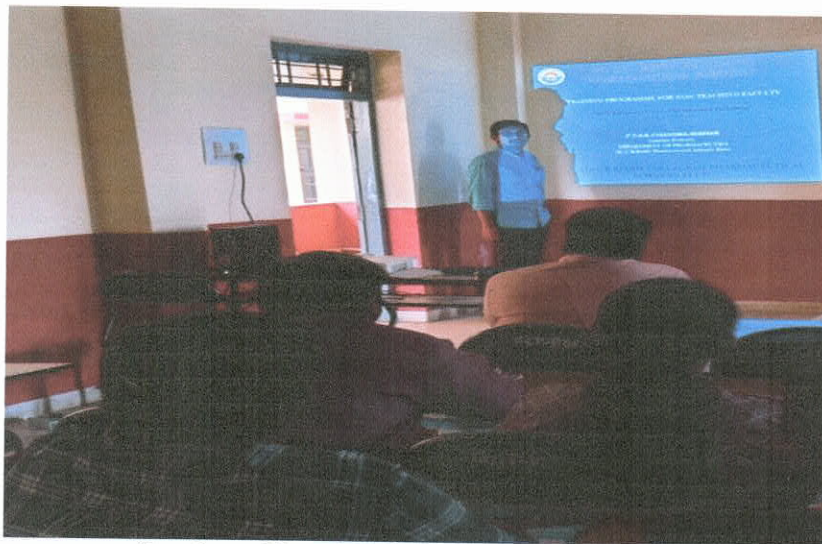

- Participants gained a comprehensive understanding of basic equipment used in pharmaceutical technology, including their functions, principles of operation, and key components.
- Participants developed the skills necessary to set up and calibrate equipment accurately, ensuring reliable and precise measurements.
- Participants learned routine maintenance tasks and troubleshooting techniques for equipment, enabling them to identify and resolve common issues.
- Participants gained sound knowledge on implementing safety protocols and guidelines specific to each equipment type, promoting a safe working environment
