## CIRCULAR

This is to inform to all the faculty members that Sir C.R. Reddy College Of Pharmaceutical Sciences is organizing the One Week Faculty Development Program on **"Role of Computers In Pharmaceutical Research"** by Dr M.Saritha, Professor, Department of Pharmaceutics, Vignan Institute of Pharmaceutical Technology from 14/10/2019 to 19/10/2019 at the seminar hall of Sir C. R. Reddy College Of Pharmaceutical Sciences. All the faculty members are requested to register and attend the program.

**Programme co-ordinator: K.Naga Raju,**

Asst. professor,

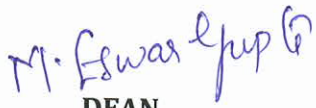

Dept of Pharmaceutical Analysis.

## About the Institute

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever - increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology – 18 seats, Pharmacology -18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

## About the Department

The department of pharmaceuticals was established in 2011. It equipped with tablet punching machine, dissolution apparatus, brook field viscometer, stability chamber, disintegration apparatus and orbital shaking incubator.

The major apparatus for the Department of Pharmaceuticals are to inculcate how the me-too active pharmaceutical ingredients can be converted into outcome-oriented as well as patient-friendly end user formulations.

Through the industrial-oriented syllabus contents and intense training at this department during their study, the students are exposed to recent know-how of the technology used to make the final formulations.

The basic knowledge about pharmaceutical technology and the proper way to get patent for their innovative ideas are the additional unique features of the program blended with the presence of highly-reputed faculty members with vast experience.

## About the Programme

This program is essential to equip educators with insights into the "Role of Computers in Pharmaceutical Research," enabling them to guide students in leveraging computational tools for innovative drug discovery. It bridges the gap between traditional and modern approaches, enhancing research efficiency. Participants acquire hands-on skills vital for preparing students for technology-driven pharmaceutical careers. The program fosters a community of educators well-versed in computational techniques, fostering collaboration and knowledge exchange. Ultimately, it ensures that faculty remain at the forefront of advancements, empowering them to shape the future of pharmaceutical research and education.

## Objective of the Programme

- The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this one week faculty Development Program was to impart skill up gradation and to train on the skills necessary for effective utilization of computers in pharmaceutical research and development.

## Topics

- Computational modeling of drug disposition
- Computer aided formulation development
- Computer simulations in pharmacokinetics and pharmacodynamics
- Computers in clinical development
- QBD design in pharmaceutical development

### **Objective:**

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this one week faculty Development Program was to impart skill up gradation and to train on the skills necessary for effective utilization of computers in pharmaceutical research and development.

### **Topics covered:**

- Computational modeling of drug disposition
- Computer aided formulation development
- Computer simulations in pharmacokinetics and pharmacodynamics
- Computers in clinical development
- QBD design in pharmaceutical development

### **Programme outcomes:**

Sir C.R.Reddy College of Pharmaceutical Sciences has successfully organised a One Week Faculty Development Program on "Role of Computers in Pharmaceutical Research". This

  
PRINCIPAL  
Sir C.R.Reddy College of

### About the Institute

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever - increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology – 18 seats, Pharmacology -18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

### About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures

### About the Programme

- Unlock the realm of modern pharmaceutical analysis in our One-week Faculty Development Program on "Advances in Pharmaceutical Analytical Techniques." Delve into state-of-the-art methods, from chromatography to spectroscopy, guided by expert faculty. Explore innovations driving drug quality, safety, and efficacy evaluations. Gain hands-on experience with cutting-edge instruments and data interpretation. Elevate your teaching prowess and industry relevance. Join us for a transformative week that empowers educators with the latest advancements in pharmaceutical analytical techniques.

### Objective of the Programme

- The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this one week faculty Development Program on "Advances in Pharmaceutical Analytical Techniques" was to develop an understanding of various analytical methods used for the estimation of biological samples.

### Topics

- Importance of biological sample analysis
- Collection and preservation of bio fluids
- Extraction of analyte from bio fluids
- Analysis by different methods
- Interpretation of results

## PROGRAMME REPORT

**Programme:** A One week Faculty Development Program on “Advances in Pharmaceutical Analytical Techniques”.

**Date:** 22/01/2020 to 28/01/2020.

### Details of resource person 1:

Name : Dr V.Bhaskar Raju.  
Designation : Professor & HOD.  
Department : Pharmaceutical Analysis.  
Institute : Sri Vasavi Institute of Pharmaceutical Sciences.  
Email ID : bhaskar\_pharmaanalyst@yahoo.co.in.  
Contact Number : 9491352334.

### Details of resource person 2:

Name : Mr G.Kiran Kumar.  
Designation : Assistant Professor.  
Department : Pharmaceutical Analysis  
Institute : Sir C. R. Reddy College of Pharmaceutical Sciences.  
Email ID : kirru.pharma@gmail.com  
Contact Number : 9701500511

### **Objective:**

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this one week faculty Development Program on “Advances in Pharmaceutical Analytical Techniques” was to develop an understanding of various analytical methods used for the estimation of biological samples.

### **Topics covered:**

- Importance of biological sample analysis
- Collection and preservation of bio fluids
- Extraction of analyte from bio fluids
- Analysis by different methods
- Interpretation of results

  
PRINCIPAL  
Sir C.R.Reddy College of  
Pharmaceutical Sciences  
ELURU-534007

**Programme outcomes:**

Sir C.R.Reddy College of Pharmaceutical Sciences has successfully organised the One Week Faculty Development Program on “Advances in Pharmaceutical Analytical Techniques”.

- All the participants became familiar with various sample extraction techniques
- Created awareness about various instrumental techniques employed for analysis of biological samples
- Participant’s interpretation skills were improvised in terms of choice of analytical techniques for the estimation of biological samples.

## PROGRAMME REPORT

Programme: Faculty training Program on "Common Model Instrument Handling Methods Used in Analytical Laboratory" for non-teaching staff.

Date: 13-06-2019.

### Details of resource person:

Name : K.Nagaraju  
Designation : Assistant Professor  
Department : Pharmaceutical Analysis  
Institute : Sir C.R.Reddy College of Pharmaceutical Sciences.  
Email ID : nagaraju162@gmail.com  
Contact Number : 6303282826

### Objectives:

Sir C.R.Reddy College of Pharmaceutical Sciences organised one day faculty training Program on "Common Model Instrument Handling Methods Used in Analytical Laboratory" for non-teaching staff with the objective that all the participants will be equipped with the necessary knowledge and skills to handle common model instruments in analytical laboratories effectively, ensuring accurate and reliable analytical measurements and contributing to the overall success of laboratory operations..

### Topics covered:

- Introduction to analytical instruments
- Instrument setup and calibration
- Instrument trouble shooting and maintenance.
- Safety considerations and instrument handling.
- Documentation and reporting

### Programme outcomes:

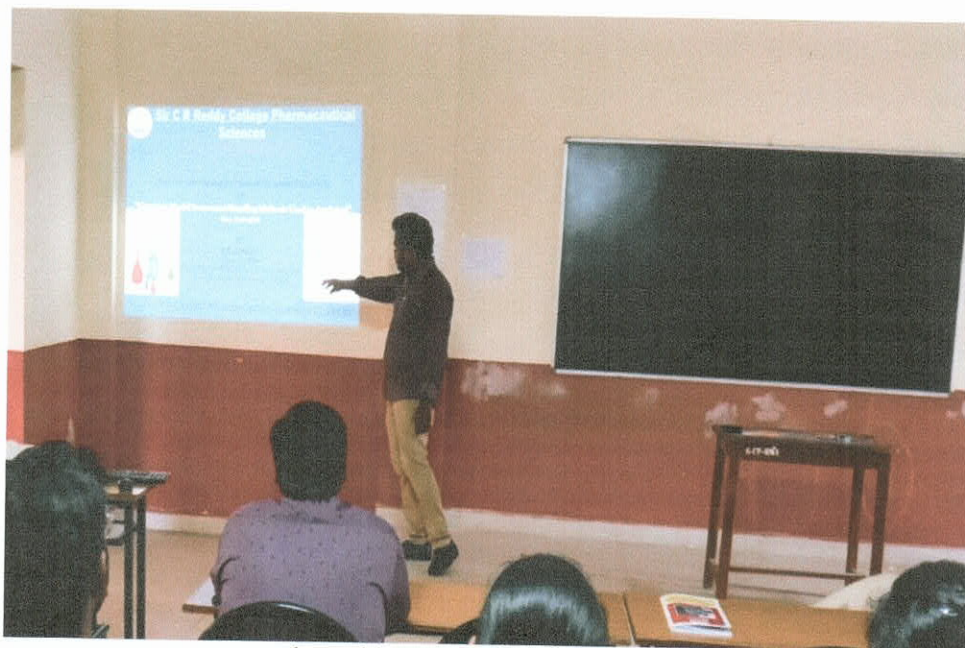

Sir C.R.Reddy College of Pharmaceutical Sciences has successfully organised one day faculty training Program on "Common Model Instrument Handling Methods Used in Analytical Laboratory" for non-teaching staff.

- Participants gained a comprehensive understanding of the commonly used instruments in analytical laboratories.
- Participants acquired necessary skills to set up and calibrate the instruments accurately.
- Participants developed the ability to identify and troubleshoot common issues that arise during instrument operation.
- Participants equipped with knowledge of safety protocols and guidelines specific to each instrument.
- Participants learned proper documentation of instrument usage, maintenance, and troubleshooting.
