About the Institute

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever-increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology – 18 seats, Pharmacology -18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

About the Department

The department of pharmaceuticals was established in 2011. It equipped with tablet punching machine, dissolution apparatus, brook field viscometer, stability chamber, disintegration apparatus and orbital shaking incubator. "The major apparatuses for the Department of Pharmaceuticals are to inculcate how the me-too active pharmaceutical ingredients can be converted into outcome-oriented as well as patient-friendly end user formulations." Through the industrial-oriented syllabus contents and intense training at this department during their study, the students are exposed to recent know-how of the technology used to make the final formulations. "The basic knowledge about pharmaceutical technology and the proper way to get patent for their innovative ideas are the additional unique features of the program blended with the presence of highly-reputed faculty members with vast experience.

About the Programme

This program holds great significance as it unveils "Current Trends in Drug Delivery Systems," equipping educators to prepare students for pioneering roles in optimizing drug administration. It bridges academia and industry, enhancing understanding of innovative delivery technologies crucial for modern healthcare. Participants gain hands-on experience and knowledge, enabling effective guidance of students. The program fosters a network of educators well-versed in cutting-edge drug delivery, promoting collaboration and knowledge sharing. Ultimately, it ensures faculty lead the way in shaping the future of drug delivery, contributing to enhanced therapeutic outcomes and patient care.

Objective of the Programme

- The objectives of Sir C.R.Reddy College of Pharmaceutical Sciences in organizing a one week faculty Development Program on "Current Trends in Drug Delivery Systems" were
- To provide a platform to learn and gain knowledge in the area of novel drug delivery systems that will be particularly helpful in effective teaching and learning process.
- To train the participants on the use of modified drug delivery systems and fulfill the growing necessity.

Topics to be Covered

- Osmotic drug delivery systems
- Targeted drug delivery systems
- Transdermal delivery systems
- Carrier based delivery systems
- Muco-adhesive delivery systems
- Time delayed delivery systems

Institute : Sir C.R.Reddy College of Pharmaceutical Sciences
Email ID : meguptas@gmail.com
Contact Number : 9885523760

Objectives:

The objectives of Sir C.R.Reddy College of Pharmaceutical Sciences in organizing a one week faculty Development Program on “Current Trends in Drug Delivery Systems” were

- To provide a platform to learn and gain knowledge in the area of novel drug delivery systems that will be particularly helpful in effective teaching and learning process.
- To train the participants on the use of modified drug delivery systems and fulfill the growing necessity.

Topics covered:

- Osmotic drug delivery systems
- Targeted drug delivery systems
- Transdermal delivery systems
- Carrier based delivery systems
- Muco-adhesive delivery systems
- Time delayed delivery systems

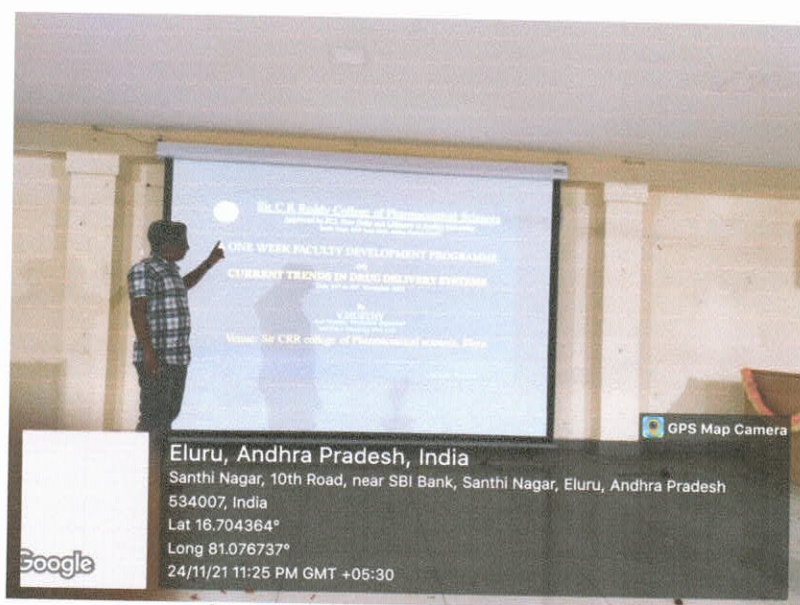

PRINCIPAL
Sir C.R.Reddy College of
Pharmaceutical Sciences
ELURU-534007

Programme outcomes:

Sir C.R.Reddy College of Pharmaceutical Sciences has successfully organised a One Week Faculty Development Program on "Current Trends in Drug Delivery Systems".

- This programme created awareness on principles and technology used in the design of modified release drug delivery systems.
- This programme helped in understanding about the various novel approaches for the development of drug delivery systems.
- Participants gained sound knowledge about selection of drugs and polymers for improvising and modifying delivery of the drugs

Number of participants: 39

About the Institute

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever - increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology - 18 seats, Pharmacology - 18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

About the Department

The department of pharmaceuticals was established in 2011. It is equipped with tablet punching machine, dissolution apparatus, Brookfield viscometer, stability chamber, disintegration apparatus and orbital shaking incubator.

The major apparatuses for the Department of Pharmaceuticals are to inculcate how the me-too active pharmaceutical ingredients can be converted into outcome-oriented as well as patient-friendly end user formulations.

Through the industrial-oriented syllabus contents and intense training at this department during their study, the students are exposed to recent know-how of the technology used to make the final formulations.

The basic knowledge about pharmaceutical technology and the proper way to get patent for their innovative ideas are the additional unique features of the program blended with the presence of highly-reputed faculty members with vast experience.

About the Programme

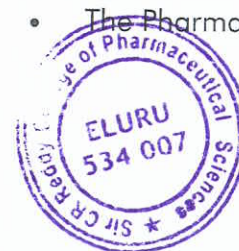

This program holds immense significance by illuminating the "Role of Regulatory Affairs in the Pharmaceutical Industry," empowering educators to prepare students for vital roles in ensuring drug safety and compliance. It bridges academia and industry, enhancing understanding of regulatory processes critical for successful pharmaceutical careers. Participants gain practical insights and skills, equipping them to guide students effectively. The program fosters a network of educators well-versed in regulatory intricacies, fostering collaboration and knowledge exchange. Ultimately, it ensures faculty are well-equipped to shape the future of pharmaceutical regulation, cultivating a workforce aligned with industry demands.

Objective of the Programme

The main objective of this one week faculty Development Program on "Role of Regulatory Affairs in Pharmaceutical Industry" was to provide strategic, tactical and operational knowledge and support for working within regulations to expedite the development and delivery of safe and effective healthcare products to individuals around the world.

Topics to be Covered

- The regulatory framework of innovative therapies
- Regulatory aspects, challenges and opportunities
- Regulatory perspective on nutraceutical
- Regulatory aspects on vaccine and biopharmaceuticals
- Recent update on ANDA
- The Pharma Digitalization

PROGRAMME REPORT

Programme: Faculty Training Program on “Basic Application of Computers in Various Laboratories” for non-teaching staff.

Date: 11-05-2022.

Details of resource person:

Name : K.H.Mounica.
Designation : Assistant Professor.
Department : Science and Humanities.
Institute : Sir C.R.Reddy College of Pharmaceutical Sciences.
Email ID : khmounica@gmail.com.
Contact Number : 8464882380.

Objectives:

Sir C.R.Reddy College of Pharmaceutical Sciences organised one day faculty training Program on “Basic Application of Computers in Various Laboratories” for non-teaching staff. The main objective of this programme was to enhance the overall efficiency and productivity of non-teaching staff by providing them with the knowledge and confidence to navigate computer systems and perform basic tasks relevant to their laboratory roles.

Topics covered:

- Introduction to computer hardware and software components relevant to laboratory settings.
- Basic operating system functions and files management for efficient data organization.
- Data using spread sheets.

Programme outcomes:

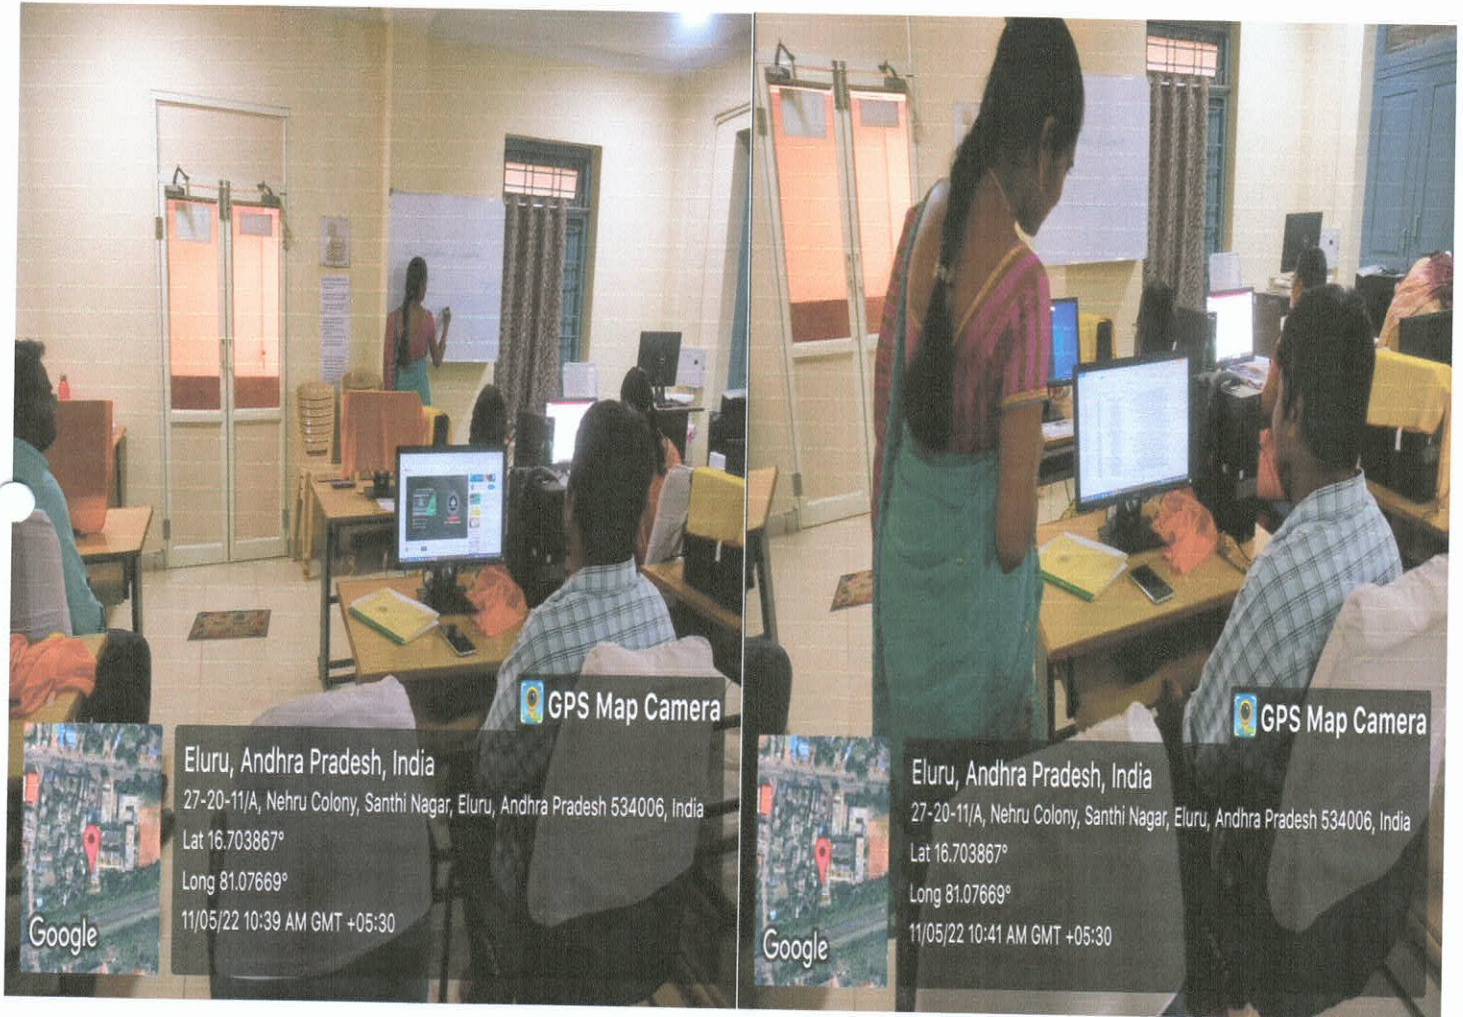

Sir C.R.Reddy College of Pharmaceutical Sciences has successfully organised one day faculty training Program on “Basic Application of Computers in Various Laboratories” for non-teaching staff. Outcomes attained with this programme are

- Increased understanding of computer hardware, software, and operating systems relevant to laboratory work.
- Enhanced proficiency in using tools for data entry, manipulation, and analysis.
- Improved ability to organize and manage laboratory data effectively using spread sheets and other tools.
- Increased confidence in accessing and utilizing online resources.
- Improved efficiency and productivity in performing computer-based tasks within laboratory environments.
