About the Institute

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever-increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology - 18 seats, Pharmacology - 18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

About the Department

The Pharmacy practice department is established in this Institution in the year 2014 primarily, when the college had taken initiative to include the course Doctor of Pharmacy in this Institution. The main target of our department is to achieve positive outcomes from drug therapy, promote safe and rational use of medicine. The department plays a prominent role in health care system at hospital setup through well programmed pharmaceutical care services, with Pharm D program and the department has MoU with Government General Hospital, Eluru and collaboration with a multi-specialty hospital corporate hospitals such as Andhra hospitals, Good Samaritan Cancer and Government District Hospital and St. Joseph dental for the advance clinical pharmacy teaching, learning and practice process from 2015.

Department of Pharmacy Practice contains with its Institutional Drug Information Centre (DIC) collaborating with Hospital along with MICROMEDEX, CLINIREX and UP TO DATE software since from the inception of the department.

About the Programme

Recently India is developing in many aspects such as monitoring and reporting of adverse drug reaction. Pharmacovigilance programme introduced in India for better pharmaceutical care to improve patient safety. Creating awareness is crucial to enhance for better clinical practice. Numerous of the adverse drug reactions were reported like Metformin, Olanzapine etc. Healthcare professionals, other healthcare professionals and nonhealthcare professionals are attentively participating in monitoring and reporting of ADRs via enhancing rational use of medications and genuine treatment pattern. These consequences decrease the failure of treatment and progress in the medication adherence.

The impact of CIOMS Working Groups on Global development pharmacovigilance has been substantial. Several ICH (International Council for Harmonisation of Technical Requirements for Pharmaceuticals for Human Use) guidelines, such as E2A, E2C, E2D and E2F, were based on the work of respective CIOMS Working Groups

Objective of the Programme

The main objective of Sir C.R.Reddy College of Pharmaceutical Sciences to organise a One Week Faculty Development Program on "Recent Advances in Pharmacy Practice" was to update and provide sufficient learning on the latest happenings in the field of pharmacy practise which enhances learning process and helps in effective teaching both in theory and practical sessions

Topics to be Covered

- Recent advances using Pharmacovigilance
- CIOMS forms handling and reporting in PV
- Effective use of Micromedex.
- Assessment of current state of AI and machine learning
- AI in drug discovery and pharmaceutical Research.
- Role of AI in clinical Validation

Programme outcomes:

Sir C. R. Reddy College of Pharmaceutical Sciences has successfully organised a One Week Faculty Development Program on "Recent Advances in Pharmacy Practice".

- This Programme helped in understanding the usage of pharmacovigilance in better ADR reporting
- Created awareness on latest happenings in pharmacy practice.
- Invoked good understanding on AI among the participants
- Session helped in enhancing their knowledge and encouraged participants to involve in research for effective practical project works.

Number of participants: 39

About the Institute

Sir C.R.Reddy College of pharmaceutical sciences was established in 2007 to prepare graduates in pharmacy to meet their ever - increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The college is PCI and AICTE approved. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRRCOPS runs the UG and PG courses like B. Pharm established in 2007 with 60 seats, Pharm. D established in 2014 with 30 seats and M. Pharm established in 2011 with Pharmaceutical technology – 18 seats, Pharmacology -18 seats and Pharmaceutical Analysis and Quality Assurance- 18 seats.

About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures.

About the Programme

- This FDP programme focuses on the latest developments in drug discovery. Participants will gain insights into novel technologies like AI-driven drug design and precision medicine. The programme will leave attendees equipped to revolutionize drug development and improve patient outcomes

Objective of the Programme

- The main objective of Sir C.R.Reddy College of Pharmaceutical Sciences to organise a One Week Faculty Development Program on “Recent Advances in Drug Discovery and Development " was to provide educators with the knowledge and skills necessary to stay updated with the latest trends in medicinal chemistry. It will enable them to impart relevant and State-of-the-art knowledge to their

Topics to be Covered

- Introduction to Drug Discovery and Development.
- Role of AI and ML in Drug Discovery
- Lead Generation and Optimization
- Preclinical Development.
- Clinical Development
- Regulatory Considerations and Drug

Programme outcomes:

Sir C. R. Reddy College of Pharmaceutical Sciences has successfully organised a One Week Faculty Development Program on “Recent Advances in Drug Discovery and Development”.

- Participants gained a comprehensive understanding of the recent advances in drug discovery and development; including target identification, lead generation, preclinical and clinical development, and regulatory considerations.
- Participants were acquainted with modern techniques used in drug discovery, such as high-throughput screening, virtual screening, structure-activity relationship (SAR) studies, pharmacokinetics, and pharmacodynamics assessments.
- Participants learned to apply computational tools and software in drug design, analysis, and lead optimization, enabling them to incorporate computational methods in their research and teaching activities.
- Participants developed the ability to critically analyze research papers, case studies, and clinical trial data in the context of drug discovery and development.

Number of participants: 36

PROGRAMME REPORT

Programme: Faculty Training Program on “Storage and Inventory Control of Various Pharmaceutical Appliances Used in Laboratory” for non-teaching staff.

Date: 08-05-2023.

Details of resource person:

Name : M.Krishna.
Designation : Assistant Professor.
Department : Pharmacy Practice.
Institute : Sir C.R.Reddy College of Pharmaceutical Sciences.
Email ID : krishna.mannem@gmail.com.
Contact Number : 7702060202.

Objectives:

Sir C.R.Reddy College of Pharmaceutical Sciences organised one day faculty training Program on “Storage and Inventory Control of Various Pharmaceutical Appliances Used in Laboratory” for non-teaching staff with the objective that all participants will gain the knowledge and skills necessary to effectively handle the storage, inventory control, setup and maintenance of various pharmaceutical appliances used in laboratory settings. This will ensure the safe and efficient functioning of the appliances, contribute to optimal laboratory operations, and promote the integrity of pharmaceutical research and testing.

Topics covered:

- Introduction to Pharmaceutical Appliances.
- Storage Requirements for Pharmaceutical Appliances.
- Inventory Management Techniques.
- Safety Practices in Appliance Handling.
- Documentation and reporting.

Programme outcomes:

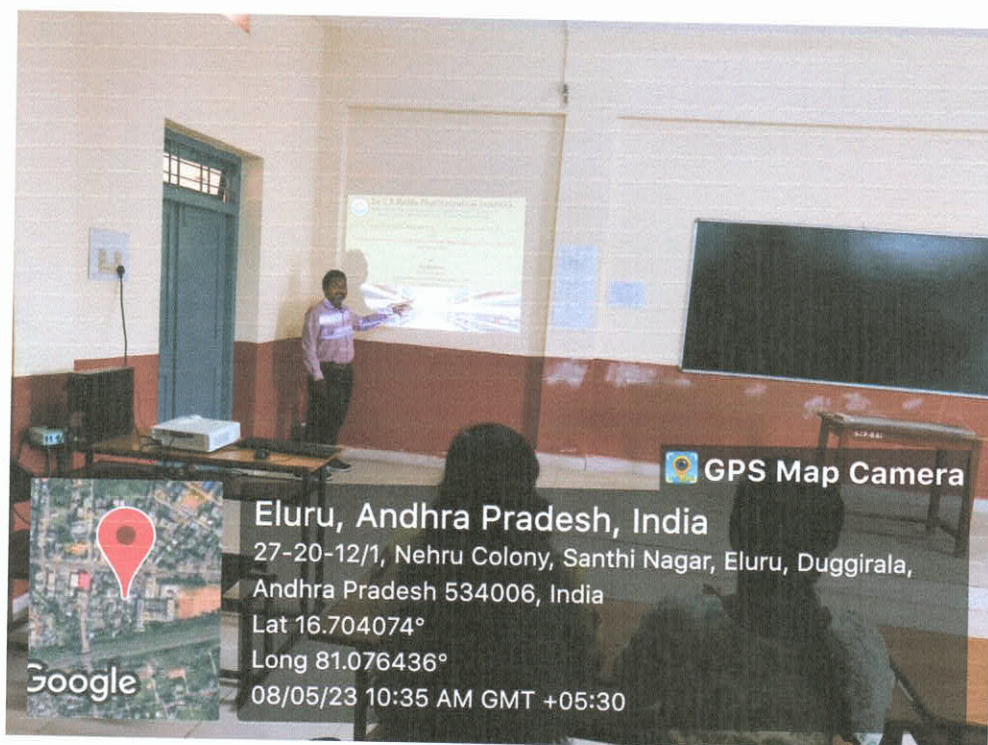

Sir C.R.Reddy College of Pharmaceutical Sciences has successfully organised one day faculty training Program on “Storage and Inventory Control of Various Pharmaceutical Appliances Used in Laboratory” for non-teaching staff.

- Participants gained a deeper understanding of various pharmaceutical appliances used in laboratories, including their functions, features, and specifications.
- Participants were well informed about the optimal storage conditions for different pharmaceutical appliances, ensuring their proper functioning and longevity.
- Participants developed the skills to correctly set up and install pharmaceutical appliances, following manufacturer instructions and safety guidelines.
- Participants acquired the techniques for tracking and managing appliance inventory, including proper labelling, documentation and record-keeping.
