## About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

## About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures.

## About the Programme

- The course will give knowledge about to Neutraceuticals and their delivery approaches
- The course will use to gain knowledge to Contribution of neutraceuticals in therapeutics
- This session helps to understand the future of neutraceuticals

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To understand the basic scientific, therapeutic and clinical principles as well as the “evidence based medicine” underlying the rational use of vitamins ,minerals, supplements and nutraceuticals .
2. To review the processes involved in the production ,standardization , quality control of neutraceuticals

## Topics to be Covered

- The course will give knowledge about to Neutraceuticals and their delivery approaches
- The course will use to gain knowledge to Contribution of neutraceuticals in therapeutics
- This session helps to understand the future of neutraceuticals

## PROGRAMME REPORT

**Name of the event:** A one day seminar on “NUTRACEUTICAL REVOLUTION IN PHARMACEUTICAL RESEARCH”

**Date:** 27/04/2023

**Name of the Resource person:** Dr. P. Usha Sri

Assistant Professor

Department of Pharmacy Practice

Lydia college of Pharmacy, Eethakota

Phone number: +91810617495

Email Id: ushapammi69@gmail.com

**Name of the Co-ordinator:** Dr. K. Naga Raju

Professor

Department of Pharmaceutical Analysis

**Number of students attended:** 33

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

We, Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, have organised a one day seminar on “NUTRACEUTICAL REVOLUTION IN PHARMACEUTICAL RESEARCH” for B. Pharm, Pharm. D and M. Pharm students by the resource person **Dr. P. Usha Sri** on Experiments on pharmaceutical research and its fundamentals. The number of Participants in this program was 33. Upon completion, they were able to understand the following objectives.

### **Objectives:**

1. To understand the basic scientific, therapeutic and clinical principles as well as the “evidence based medicine” underlying the rational use of vitamins ,minerals, supplements and nutraceuticals .
2. To review the processes involved in the production , standardization , quality control of nutraceuticals

### About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

### About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods.

### About the Programme

Become your own boss, make your own rules and create something unique by starting your own business. Successful entrepreneurs create and extract value from researched opportunities by turning them into viable businesses.

### Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. Development of economy.
2. Creates employment.
3. Develops auxiliary businesses

### Topics to be Covered

1. Creating new customers.
2. Moderate risk taking.
3. Accountability

**Number of students attended:** 45

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, organized a one day seminar on “**Benefits of Becoming an Entrepreneur**” for B. Pharm students by the resource person **Mr. M. Krishna Kishore**.

Totally 45 students participated in this program and after the completion of the program they were able to understand the following objectives and learning outcomes.

### **Objectives:**

1. Development of economy.
2. Creates employment.
3. Develops auxiliary businesses.
4. Team development
5. Optimism

## About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

## About the Department

Pharmacology is the science which deals with effect of drugs. The main objective of pharmacology is to provide scientific data for choosing a drug treatment of proven efficacy and safety from the various options available. A wonderful arena for research oriented students is being provided by the well-equipped laboratories with CPCSEA approved animal house facility in our college. The Pharmacology department is engaged in imparting knowledge on various aspects of preclinical and clinical Pharmacology through proper media.

The department goal is to prepare students for productive and successful careers in pharmaceutical industry, academia, research and public sectors.

## About the Programme

The workshop helps to gain knowledge about factors affecting clinical research.

Assisted in assessment of the current situation in research

Comprehension about entry level management, operational and research management

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this Two day workshop on Excellence in Pharm D is

- To know about the rewarding career opportunities in Clinical Research.
- To apply scientific principles to the discovery and development of interventions
- To identify scientific questions, clinical research hypotheses and objectives of clinical trails
- To impact knowledge on skills to be added clinical research co-ordinator

## Topics to be Covered

- Site perspectives on clinical research quality
- Regulatory and safety aspects concerned with clinical research in industry
- Typical career path of Pharm. D pursuer

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

## About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods.

## About the Programme

Become your own boss, make your own rules and create something unique by starting your own business. Successful entrepreneurs create and extract value from researched opportunities by turning them into viable businesses.

## Objective

Pharmaceutical sciences combine scientific aspects that are critical in the development and manufacture of new drugs, handling of medicines and medical devices. Pharmacuetcs is the discipline of pharmacy that deals with the process of turning a new chemical entity (NCE) or old drugs into a medication to be used safely and effectively by patients. There are many chemicals with pharmacological properties, but need special measures to help them achieve therapeutically relevant amounts at their sites of action. Pharmacognosy is the study of medicines or crude drugs produced from natural sources such as plants, microbes, and animals. Biotechnology is a science-driven industry sector that uses living organisms and molecular biology to produce healthcare-related products. The most prominent area of biotechnology is the production of therapeutic proteins and other drugs through genetic engineering. Further, pharmacology is the study of the interactions that occur between a living organism and chemicals that affect normal or abnormal biochemical function. In the present conference, pharmaceutical experts from diverse international/national organizations will address the diverse aspects related to pharmaceutical sciences.

## About the Association

Association of Pharmacy Professionals (APP) is a unique organization of more than 1500 dedicated professionals willing to serve pharmacy profession in dynamic ways and involves people from various arena including students, teachers, researchers, scientists as well as industry professionals. APP aids in extending the knowledge and facilities of several technical institutes, industries as well as health sectors to the remote areas where the service and live functionality of pharmacy profession is the real want. This humble act might be in the form of academic, research or health related activities. The association also share the responsibilities of professionals towards the community and social liabilities. APP accesses the availability of expertise when it needs and ensures that the systematic teaching learning activities not only occurs but also reach to the common knowledge development system by acting as source of fulfilment. Kindly visit the association website [www.appconnect.in](http://www.appconnect.in) for more details.

## About the Institute

Sir C.R. Reddy College of Pharmaceutical Sciences was started to prepare graduates in pharmacy to meet their ever-increasing need in pharmaceutical industry, drug control, teaching and community Pharmacy. The objectives of the college are to establish and maintain an outstanding professional education programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health, to conduct outstanding research and service programmes to keep place with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines. SIRCRRCOPS runs the UG and PG courses like B.Pharm, Pharm.D and M.Pharm in Pharmaceutical Technology, Pharmacology and Pharmaceutical Analysis & Quality Assurance. Kindly visit the college website <https://sircrrcops.edu.in> for more details.

### Oral/Poster Presentations

You are invited for oral/poster presentations of research papers and review articles related to theme of the conference. Abstract can be submitted at [gccups2022@gmail.com](mailto:gccups2022@gmail.com).

### Topics

Nanotechnology, bioavailability enhancement, pharmacy practice, pharmacokinetics of novel drug delivery systems, preformulation considerations, medicinal chemistry, drug design, pharmacology, natural products and others relevant topics.

### Eligibility

Students of D. Pharm, B. Pharm, M. Pharm, Pharm. D, Research Scholars and faculty members.

## Programme schedule

25<sup>th</sup> November 2022

Inauguration 10.00 AM - 10.20 AM

Welcome Speech & Opening Remarks

DR. M.B.S.V. PRASAD

Secretary, Sir C.R. Reddy College of Pharmaceutical Sciences, Eluru

SHRI. M. RAJA RAMA MOHAN RAO

Correspondent, Sir C.R. Reddy College of Pharmaceutical Sciences, Eluru

SHRI. J. MALLIKHARJUNUDU

Correspondent, Sir C.R. Reddy College of Pharmaceutical Sciences, Eluru

Principal, Sir C.R. Reddy College of Pharmaceutical Sciences, Eluru

PROF. SURESH V. CHENNUPATI

HOD, Dept. of Pharmaceutical Analysis, Nalanda College of Pharmacy, Nalgonda (TS)

Scientific Session I

PROF. KUNTAL DAS

Krupanidhi College of Pharmacy, Bangalore, Karnataka

10:25 AM - 11:10 AM

Oral/Poster Presentations

11:30 AM - 12:55 PM

Lunch Break

01:00 PM - 01:55 PM

Oral/Poster Presentations (cont.)

02:00 PM - 03:30 PM

26<sup>th</sup> November 2022

Welcome Speech & Opening Remarks 10.00 AM - 10.20 AM

DR. SUNITA DAHIYA (Virtual)

General Secretary APP

School of Pharmacy, University of Puerto Rico, San Juan, PR, USA

PROF. ALEKHA K. DASH (Virtual)

President, APP American International Branch

Creighton University, Omaha, Nebraska, USA

Scientific Session II (Virtual)

PROF. SOMNATH SINGH (Virtual)

Creighton University, Omaha, Nebraska, USA

10:25 AM - 11:10 AM

Chairpersons (Virtual)

PROF. MEHUL N. PATEL (Dharmsinh Desai University, Nadiad, Gujarat)

PROF. PALANISAMY SELVAMANI (Anna University, BITS Campus, Trichy, Tamilnadu)

Oral/Poster Presentations (Virtual)

10:25 AM onward

Scientific Session III

PROF. T. S. SHANMUGARAJAN

Vels Deemed to be University (VISTAS), Chennai, Tamilnadu

11:20 AM - 12:05 PM

Lunch Break

12:05 PM - 12:55 PM

Valedictory Function

01:00 PM

Vote of Thanks

Registration

Registration fee is Rs 600/-; US\$100 (for foreign participants). Registration Fee can be payable through

Internet Banking. Name of the payee: SIRCRRCOPSAN, A/C NO: 41379023645, IFSC CODE: SBIN0016972, SBI

## CIRCULAR

This is to inform all the students of B. Pharm, M. Pharm and Pharm. D Students that, as a part of 21<sup>st</sup> Indo-US International Conference on Global challenges a one day seminar session on “**Exploring Advancements : A Research Odyssey in Pharmacy**” (Virtual Mode) by Prof. Somnath Singh is organized in our college dated on 26/11/2022. Hence, all the students are instructed to utilize this opportunity and make the event success.

Date: 27/04/2023

Time: 10.00 A.M – 12:30 P.M

Venue: Seminar Hall, Sir C. R. Reddy College of Pharmaceutical Sciences.

## PROGRAMME REPORT

**Name of the event:** A one day seminar session on “**Exploring Advancements: A Research odyssey in Pharmacy**” in 21<sup>st</sup> Indo- US International Conference which is themed as “**Global Challenges and current updates in Pharmaceutical research**”.

**Date:** 21/02/2023

**Name of the Resource person:** Prof. Somnath Singh  
Creighton University  
Omaha, Nebraska, USA

**Name of the Co-ordinator:** Dr. A. Narendra Babu  
Professor and Principal  
Department of Pharmacology

**Number of students attended:** 231

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

We, Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, have organised a one day seminar session on “**Exploring Advancements: A Research odyssey in Pharmacy**” for all the students by the resource person **Prof. Somnath Singh**. The number of Participants in this program was 231. Upon completion, they were able to understand the following objectives.

### **Objectives:**

1. To know about the factors influencing practise in the future.
2. To impart knowledge on Progressive pharmacists activities into new health care fields.
3. To apply scientific principles to the discovery and development of interventions.

## Topics covered:

1. Assessment of the current situation
2. Traditional role of Pharmacist as a dispenser of Medicines
3. Substance oriented competencies
4. Clinical Practise relevant: Patient oriented competencies

## Learning outcomes:

1. Site perspectives on Clinical research quality
2. Regulatory and safety aspects concerned with clinical research in Industry
3. Typical career path of Pharm. D pursuer and Pharmacy graduation pursuer
4. Limitations for Clinical Practise and Pharmacy practise in India

### About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

### About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures.

### About the Programme

- The course will give knowledge about to herbal drug research, clinical research in traditional medicine: Priorities and methods.
- The course will use to gain knowledge about flavonoids: risks and therapeutic opportunities

### Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To know about the herbal medicine
2. To learn about the evidence based medicine
3. To impart knowledge on traditional medical system.
4. To know about the pragmatic trails

### Topics to be Covered

1. Traditional use of herbs and their scientific use.
2. Efficacy and effectiveness of a traditional herbal remedy
3. Chemical constituents of herbal remedies

**Number of students attended:** 35

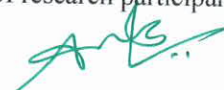

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

We, Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, have organised a one day seminar on “RESEARCH ETHICS AND ART OF RESEARCH OF WRITING” for IV/ IV B. Pharm, V/ VI Pharm. D and M. Pharm students by the resource person **Dr. T. DEEPAN**. The number of Participants in this programme was 35. Upon completion, they were able to understand the following objectives.

### **Objectives:**

1. To learn about the research
2. To know about the principles of research ethics
3. To impart knowledge on importance of research ethics that govern the standards of conduct for scientific community.
4. To adhere to principles in order to protect the dignity, rights and welfare of research participants.

### About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir. CRRCOFS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18 seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

### About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods

### About the Programme

Intellectual Property Rights (IPR) Creativity and innovation are new drivers of the world economy. With the increasing relevance of Intellectual Property (IP) in this era of globalization, it is important to recognize the role which IP systems play in the growth of the Nation. Thus, there is a need to create large public awareness about the pivotal role of IPR in globalized knowledge economy.

### Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To create awareness about IPRs.
2. To create awareness especially patents and copy rights

### Topics to be Covered

1. Students learn about technical invention patents and what they are.
2. Students learned more about how the IPR system works.

Contact number: +919985854428

**Number of students attended:** 61

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, organized a one day workshop on “**IPR & Patenting**” for II<sup>nd</sup> M. Pharm and VI<sup>th</sup> students by the resource person **Dr. D. Vasavi Devi** on what are the benefits of IPR & Patenting. Totally 61 students were participated in this program and after the completion of the program they were able to understand the following objectives and learning outcomes.

### **Objectives:**

1. To create awareness about IPRs.
2. To create awareness especially patents and copy rights.
3. Students gained more about the benefits of an innovation-based IPR system.
4. Students know about types of IPR and their importance, focus and mandate of each IPR
5. To Infringement analysis and enforcement of patents with Case Laws.

## Learning outcomes:

1. Students learn about technical invention patents and what they are.
2. Students get deeper knowledge of the components of a patent application and the patent protection process.
3. Students learned more about how the IPR system works.
4. Students are aware of the precautions to take throughout the transfer of rights and the Indian and global protection processes.
5. During enforcement, students are aware of illustrative case laws and case studies.

### About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

### About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures.

### About the Programme

- The course will give knowledge about Group of cardio vascular disorders
- This session helps to give knowledge about bridging the development from basic research to clinical practice.
- It helps in understanding prescribing trends in cardiovascular diseases.
- The seminar helps to grasp Contemporary trends in utilization of administrative data bases for research.

### Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To determine the changes in trends of research
2. To know the epidemiology of cardiovascular diseases
3. To know the Risk factors and heart rate variability in general population.
4. To manage cardiovascular disease

### Topics to be Covered

- State of the art reviews of scientific advances in cardiovascular medicine
- New report tracks in global cardio vascular health
- Novel treatments in valve disease, Coronary artery disease

### About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

### About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods

### About the Programme

Innovation is largely considered to be the principle catalyst of long-term economic growth. Therefore, what is the ideal method to spur innovation? In addition to other factors, intellectual property rights (IPR) – and their relative degree of severity – play an important role in technology development and diffusion. This paper explores the controversial and polarizing nature of IPR: one side falls in support of all-encompassing and stringent regulation while the other side remains critical of such a stance. However, recent research suggests that the internationally optimal solution lies not at the extremes, but somewhere in between

### Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To make students understand the concept of intellectual property rights.
2. To make students understand the importance of IPR and its need

### Topics to be Covered

1. Students gains knowledge about intellectual property rights.
2. Students learn more about how IPR plays a key role in economy.

**Number of students attended:** 46

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, organized a one day seminar on “**Importance of IPR in Modern Global Economic Environment**” for II<sup>nd</sup> M. Pharm and IV<sup>th</sup> Pharma. D students by the resource person **Dr. V. Anitha Kumari** on what are the benefits of entrepreneurship. Totally 46 students participated in this program and after the completion of the program they were able to understand the following objectives and learning outcomes.

### **Objectives:**

1. To make students understand the concept of intellectual property rights.
2. To make students understand the importance of IPR and its need.
3. To promote the knowledge of intellectual property laws of India as well as international treaty procedures.
4. To understand the advantage of an IPR based system for innovation.
5. To understand how IPR helps in product development and technical change.

## Learning outcomes:

1. Students gain knowledge about intellectual property rights.
2. Students learn more about how IPR plays a key role in economy.
3. Students gained more about the benefits of an innovation-based IPR system.
4. Students know about positive impacts of IPR on economic development.
5. Students know about negative impacts of IPR on economic development.

### About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

### About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures.

### About the Programme

- The course will give knowledge about Significance of data processing and research methodology
- This session helps to give knowledge about factors to consider choosing a methodology

### Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To know the types of data processing
2. To learn the stages and functions of data processing
3. To impart knowledge on methods of data processing
4. To know the purpose of data analysis and interpretation
5. To know the importance of research methodology

### Topics to be Covered

- Data processing techniques
- Different methodologies of research
- Types of sampling in research methodology
- Common data collection methods Data analysis

### Two Days Seminar On

# Important Factors to Sustain Entrepreneurship

**Dates :**

**16th & 17th -08-2022**

**Venue  
AUDITORIUM**

**SIR C.R. REDDY COLLEGE OF  
PHARMACEUTICAL SCIENCES**

### About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

### About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods.

### About the Programme

Today, along with national economic growth and job creation, the need for entrepreneurship is increasing throughout all societies. In particular, entrepreneurship has important influences on national economies including reviving company economies, creating jobs, etc. In addition, Entrepreneurship or new firm formation plays an increasingly important role in knowledge-based economic development. In this study, research was conducted as follows. First, various research hypotheses were established through analysis of previous studies.

### Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To maintain Environmental, Social and Economic sustainability.
2. Creating a positive working environment

### Topics to be Covered

1. Address either environmental & social core Objective of the start-up.
2. Prior knowledge and focused attention towards Sustainability.
3. Blending a balance between profit, planet and people.

## Learning outcomes:

1. Selected policy & practical implications are identified
2. To know about resources those are lack
3. To know poorly designed Systems

## About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

## About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods.

## About the Programme

Corporate entrepreneurship (CE) has classically been about building new businesses inside established firms—starting new lines of business or new product units, setting up new practice areas, beginning offices in new geographies, managing spinoffs, or creating joint ventures, and establishing firm-level systems and processes to support these efforts. But CE is actually a much more widely applicable. Entrepreneurship is required *whenever* a firm or individual ventures into *any* unfamiliar (“far from core”) area in which success is significantly uncertain. We will reserve the term for this use to distinguish it from innovation in all its other forms.

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. Definition of entrepreneurship.
2. Advantages of entrepreneurship

## Topics to be Covered

1. Different types of entrepreneurship.
2. Characteristics of entrepreneurship.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

## About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures.

## About the Programme

- The course will give knowledge about to herbal drug research, clinical research in traditional medicine: Priorities and methods.
- The course will use to gain knowledge about flavonoids: risks and therapeutic opportunities

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To know about the herbal medicine
2. To learn about the evidence based medicine
3. To impart knowledge on traditional medical system.
4. To know about the pragmatic trails

## Topics to be Covered

1. Traditional use of herbs and their scientific use.
2. Efficacy and effectiveness of a traditional herbal remedy
3. Chemical constituents of herbal remedies
