## About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

## About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures.

## About the Programme

- The course will give knowledge about Advantages and disadvantages of herbal formulations
- This session helps to give knowledge about Present scope of herbal industry in India
- It helps to learn about Herbal drug preparations
- It helps in cognition of special emphasis on Indian medicinal plants reported for various therapeutic purposes

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To know about the herbal medicines and their use as multi target drugs for complex diseases.
2. To learn about the types of herbal formulations
3. To know the current challenges in upgrading and modernization of herbal formulations

## Topics to be Covered

- Types of herbal formulations
- Factors affecting the safety of herbal formulations
- Standardization of herbal medicine
- Methods of herbal drugs quality control

**Number of students attended:** 31

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

We, Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, have organised a one day seminar on “**CURRENT RESEARCH ON HERBAL FORMULATIONS: GLOBAL TRENDS AND INDIAN SCENARION**” for IV/ IV B. Pharm, V/ VI Pharm. D and M. Pharm students by the resource person Dr. K. N. V. Chenchu Lakshmi. The number of Participants in this program was 31. Upon completion, they were able to understand the following objectives.

### **Objectives:**

1. To know about the herbal medicines and their use as multi target drugs for complex diseases.
2. To learn about the types of herbal formulations
- 3 To know the current challenges in upgrading and modernization of herbal formulations

A One Day Seminar On

**Current issues in  
Intellectual Property  
Laws in India**

**PRINCIPAL**

Sir C.R.Reddy College of  
Pharmaceutical Sciences  
Eluru-534007

### About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

### About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods.

### About the Programme

The seminar will cover a variety of IPR topics, including how institutions and researchers can turn their research and project works into patents, hands-on instruction in patent searching and filling, and IPRs in general. The faculty members and researchers who attend this seminar will experience a favourable change that will enable them to write high-caliber articles and turn their research into patents. Institutions will profit from higher rankings and better research output

### Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. Characteristics and skills of the entrepreneurs.
2. Understand the importance of small business in various economies

### Topics to be Covered

1. Controlling and preserving outcomes.
2. Trade mark is a Sign Capable of distinguishing the good or services

**Number of students attended:** 35

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, organized a one day seminar on "Current issues in intellectual property laws in India" for B. Pharm students by the resource person **Dr. S. Nelson Kumar**. Totally 35 students were participated in this program and after the completion of the program they were able to understand the following objectives and learning outcomes.

### **Objectives:**

1. To differentiate digital media from physical media.
2. To Ease of replication should be perform
3. To effect ease of transmission
4. To execute Difficulty in classifying software
5. Carry out Difficulties in establishing uniqueness.

## About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

## About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods.

## About the Programme

- Blends local-global economics and socio-political dimensions with regional entrepreneurship development prospects
- Presents regional research studies across entrepreneurship, resource planning and regional development sectors in the developing economies
- Contributes to research in entrepreneurship development, regional business and development, contemporary political ideologies, and changing social values

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. Characteristics and skills of the entrepreneurs.
2. Understand the importance of small business in various economies

## Topics to be Covered

1. Understand and learning what is entrepreneurship and its advantages.
2. Different types of entrepreneurship.
3. Characteristics of entrepreneurship.

**Number of students attended:** 30

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, organised a one day seminar on **“Entrepreneurship and Regional Development”** for IV B. Pharm students by the resource person **Dr. B. Narasimha Rao**. Totally 30 students participated in this program and after the completion of the program they were able to understand the following objectives and learning outcomes.

### **Objectives:**

1. Definition of entrepreneurship.
2. Advantages of entrepreneurship.
3. Risks of entrepreneurship.
4. Characteristics and skills of the entrepreneurs.
5. Understand the importance of small business in various economies.

## About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures.

## About the Programme

- The course will give knowledge about to Recent advances in biocatalytic processes
- The course will use to gain knowledge to Methods, application and properties of enzymes

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To know about the enzymes
2. To learn about the industrial enzyme applications
3. To impart knowledge on advancements in enzyme engineering

## Topics to be Covered

1. Enzymes production and their applications in pharmaceutical industries
2. Application of therapeutic enzymes
3. Future prospects of enzymes in Pharmaceuticals

## SIR C.R.REDDY COLLEGE OF PHARMACEUTICAL SCIENCES

Santhi Nagar, Eluru, West Godavari District  
A.P., India - 534 007.

A One Day Seminar On

**Intellectual Property  
Rights and Research Ethics**

**Sir C.R.Reddy College of  
Pharmaceutical Sciences  
ELURU-534007**

### About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

### About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods

### About the Programme

The Seminar is focused on different aspects of Intellectual Property Rights (IPRs), Hands on training on patent searching and filling, how institutes and researchers can convert their research/project works into Patents. This Seminar will bring a positive transformation in the Faculty members and researchers to publish quality publications and convert their work in patent. Institutions will get benefit to improve their rankings and research quality

### Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To acquire respect for the author's achievement, respect for property interests.
2. To give proper acknowledgement or credit for all contributions to research

### Topics to be Covered

1. Protecting and managing results.
2. Distributing the benefits and burdens fairly.

## About the Programme

Risk management involves the use of proactive strategies to assess possible risks in your business. These strategies provide workable solutions for dealing with potential risks.

To effectively manage risks in your company, you'd need to take certain bottom line actions. Below are a few suggestions.

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To examine the factors instigating entrepreneurs survival.
2. To find out the environmental challenges confronting entrepreneurship risk management

## Topics to be Covered

1. Relationship between openness to change and innovative culture.
2. Examine how self-efficacy affects entrepreneurial culture.

**Number of students attended:** 36

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, organized a one day seminar on “**Risk Management in Entrepreneurship**” for II M. Pharm students by the resource person **Mr. Calvin Majesty**.

Totally 36 students participated in this program and after the completion of the program they were able to understand the following objectives and learning outcomes.

### **Objectives:**

1. To examine the factors instigating entrepreneurs survival.
2. To find out the environmental challenges confronting entrepreneurship risk management.
3. To know the students what are the steps involved in risk management.
4. Students should gain knowledge about use of tools to identify and quantify risk.
5. To investigate the causes of entrepreneur survival.

## About the Institute

Sir C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transmit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm

Pharmaceutical technology-18 seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

## About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures

## About the Programme

- The course will give knowledge about to review of excipient user requirements, types of excipients, Formulations.
- The course will use to gain knowledge to Current and future trend of excipient formulations.

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To conduct know about the novel excipient and differentiation of excipient manufacturing preliminary excipient marketing decision.
2. To establish optimal process performance dry finding the right settings for key process input variables.

## Topics to be Covered

1. Excipient development and Specification process
2. Marketing methods

SIR C.R. REDDY COLLEGE OF  
PHARMACEUTICAL SCIENCES

### About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

### About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods

### About the Programme

The Seminar is focused on different aspects of Intellectual Property Rights (IPRs), Hands on training on patent searching and filling, how institutes and researchers can convert

their research/project works into Patents. This Seminar will bring a positive transformation in the Faculty members and researchers to publish quality publications and convert their work in patent. Institutions will get benefit to improve their rankings and research quality.

### Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To acquire specialized knowledge of law and practicing related to insurance.
2. To stimulate the generation of IPRs.

### Topics to be Covered

1. Intangible rights that protects the products of your intelligence, creativity and intension.
2. Enhancing export opportunities

## About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods.

## About the Programme

Students learn to formulate interesting research questions, construct novel theoretical arguments, derive testable hypotheses, choose appropriate methods, design empirical studies, and use data visualization and econometrics to construct appealing "numerical narratives" for scholarly audiences. We discuss the importance of qualitative methods in the context of choosing an appropriate method, but focus primarily on quantitative methods. We will also emphasize the visual and intuitive presentation of empirical results obtained from large-scale data analysis.

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To know what is entrepreneurial culture.
2. To know the benefits of entrepreneurial culture.

## Topics to be Covered

1. Relationship between openness to change and innovative culture.
2. Examine how self-efficacy affects entrepreneurial culture.

**Number of students attended:** 44

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, organized a one day seminar on “**Research Methods in Entrepreneurship and Innovation**” for IV Pharm. D and M. Pharm students by the resource person **Dr. N.B.V Sivaram**. Totally 44 students participated in this program and after the completion of the program they were able to understand the following objectives and learning outcomes.

  
PRINCIPAL  
Sir C.R.Reddy College of  
Pharmaceutical Sciences  
ELURU-534007

**Objectives:**

1. To know what is entrepreneurial culture.
2. To know the benefits of entrepreneurial culture.
3. To find the impact of self-efficacy on entrepreneurial culture
4. To find the impact of openness to change on entrepreneurial culture
5. To find the mediating role of creativity in the relationship between openness to change and self-efficacy with an innovative culture survival.

**Learning outcomes:**

1. Students know the relationship between openness to change and innovative culture.
2. Students should identify the link between self-efficacy and creative culture is mediated by creativity.
3. To examine how self-efficacy affects entrepreneurial culture.
4. To assess how a culture of entrepreneurship is affected by a person's readiness to change.
5. To discover how creativity plays a mediating role in the connection between self-efficacy and the survival of an innovative culture.

## About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

## About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods

## About the Programme

Entrepreneurship is crucial to the overall development of any nation and in recent years it has gained prominence with the participation of women. Women today are more progressive and play an important role in meeting their economic needs and achieving social status. The emergence of women entrepreneurs in society depends mainly on changing social, psychological, economic, and cultural dimensions, which has a positive impact on the economic participation of any developed and developing countries.

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To improve the quality of business created.
2. To address barriers in order to secure the economic & Social benefits..

## Topics to be Covered

1. Choosing when & where to work.
2. Choosing who to work with.
3. Creating positive impact.

**Number of students attended:** 36

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, organized a one day seminar on “The Impact and Role of Entrepreneurship” for B. Pharm students by the resource person **Mrs. Ch. Rajya Lakshmi**. Totally 36 students participated in this program and after the completion of the program they were able to understand the following objectives and learning outcomes.

### **Objectives:**

1. To increase the knowledge and skills of existing entrepreneurs & encourage others to become one.
2. To improve the quality of business created.
3. To address barriers in order to secure the economic & Social benefits.
4. Contributing to economic efficiency through competition.
5. Wider social benefits by contributing to local economic development, supporting industrial transitions.

## About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures

## About the Programme

- The course will give knowledge about to Approaches to drug discovery
- The course will use to gain knowledge to Homology methods and basic molecular docking

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To know about the methodologies
2. To learn about the innovative tools for predicting the pharmacokinetic parameters
3. To impart knowledge on importance such as insilico structure prediction, refinement, modelling and target validation

## Topics to be Covered

- Stages of drug discovery and development
- Computer aided drug design, structure-based drug design
- Docking based virtual screening

## About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

## About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures

## About the Programme

- The course will give knowledge about to tools used in pharmaceutical research, statistical modelling, estimation of statistical parameters
- The course will use to gain knowledge to sensitivity analysis, optimal design.

## Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To study the various facts and problems in research field.
2. To evaluate the causes and results of the changes occurring in them.

## Topics to be Covered

1. Basis about statistics
2. Need for statistics in pharmaceutical research

## PROGRAMME REPORT

**Name of the event:** A one day seminar on “STATISTICAL APPLICATION IN PHARMACEUTICAL RESEARCH”

**Date:** 23/06/2018.

**Name of the Resource person:** Dr. B. Mohan Gandhi

Associate Professor

Department of Pharmaceutical Analysis

Sri Vasavi Institute of pharmaceutical sciences

Phone number: +919866847074

Email Id: vmgandhipharma@gmail.com

**Name of the Co-ordinator:** Mr. K. Naga Raju

Assistant Professor

Department of Pharmaceutical Analysis

**Number of students attended:** 31

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

We, Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, have organised a one-day seminar on “STATISTICAL APPLICATION IN PHARMACEUTICAL RESEARCH” for IV/ IV B. Pharm, V/ VI Pharm. D and M. Pharm students by the resource person **Dr. B. MOHAN GANDHI** on Experiments on pharmaceutical research and its fundamentals. The number of Participants in this program was 31. Upon completion, they were able to understand the following objectives.

### **Objectives:**

1. To study the various facts and problems in research field.
2. To evaluate the causes and results of the changes occurring in them.

### About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

### About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods

### About the Programme

The objective of this international conference is to provide a platform for academicians, professionals, researchers and students to discuss and provide a solution to various key issues and operational challenges raised by changing dimensions of Intellectual Property regime

### Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To create awareness about IPRs.
2. To create awareness especially patents and copy rights.

### Topics to be Covered

1. Raising awareness among rights holders about the importance of initiating or pursuing legal actions.
2. Provide an effective mandatory licensing mechanism as well as suitable government use provisions.

**Number of students attended:** 30

**Venue:** Sir C. R. Reddy College of Pharmaceutical Sciences.

Sir C. R. Reddy College of Pharmaceutical Sciences, Eluru, organized a two day's workshop on "**Emerging Trends in IPR Regime**" for M. Pharm students by the resource person **P.A.M. Sucharitha** on what are the benefits of entrepreneurship. Totally 30 students participated in this program and after the completion of the program they were able to understand the following objectives and learning outcomes.

### **Objectives:**

1. To create awareness about IPRs.
2. To create awareness especially patents and copy rights.
3. Students gained more about the benefits of an innovation-based IPR system.
4. Students know about types of IPR and their importance, focus and mandate of each IPR
5. To Infringement analysis and enforcement of patents with Case Laws.

Date : .....

## Learning outcomes:

1. Raising awareness among rights holders about the importance of initiating or pursuing legal actions.
2. Provide an effective mandatory licensing mechanism as well as suitable government use provisions.
3. The policy machinery dealing with such issues should be adequately prepared to take rapid action.
4. Students are aware of the precautions to take throughout the transfer of rights and the Indian and global protection processes.
5. The law addressing unauthorized manufacture and distribution of optical discs is still in rough form and should be adopted soon.

EVENT IMAGE-1

EVENT IMAGE-2

This seminar is very useful to the students, and their feedback is very positive. The management and Mr. M. Manoj Kumar, Dean of Academics of Sir C. R. Reddy College of Pharmaceutical Sciences, thanked the resource person and participants for making the seminar successful.
