About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

About the Department

The goal of the Department of Pharmaceutical Analysis is to concentrate on the creation of analytical techniques employing fresh pairings of tried-and-true techniques and instruments. It entails conducting fundamental research on the composition, stability, identity, and purity of excipients, starting materials, and active pharmaceutical components (API). The department is engaged in post-graduate student instruction and training in analytical sciences related to qualitative and quantitative estimate of natural and synthetic substances in various matrices by application of spectroscopy, chromatography, and analytical procedures.

About the Programme

- The course will give knowledge about Information on regulatory affairs
- This session helps to give knowledge about Implication of basic principles of Pharmaceutical chemistry, required skills and attitudes in the area of this research
- This seminar helps to learn Importance of CRO's

Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To know about the R&D
2. To learn about the responsibilities of most R&D Departments
3. To impart knowledge on modification of molecules to treat a certain disease.
4. To know about the lab scale experiments

Topics to be Covered

- Variety of career paths.
- Role of Clinical pharmacist
- Role of Pharmacist in Pharmaceutical formulation, R&D, quality assurance, project management, regulatory affairs, pharmacokinetics and drug metabolism, medical informatics, marketing and sales

About the Programme

- The course will give knowledge about Integration of alternatives
- This session helps to give knowledge about e- alternatives for future

Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To know about the non-animal testing methods
2. To learn about the supporting alternatives to animal testing
3. To impart knowledge on 3R's

Topics to be Covered

- Types of studies that are alternative to animal studies
- Significance of those techniques.
- survey of existing methods
- Awareness and providing useful information

About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods.

About the Programme

The concept of green entrepreneur rises from environmental concerns such as global warming, pollutions, scarcity of natural resources, ozone layer depletion, climate change and other disaster caused by the disruption in the ecosystem. Due to this growing awareness of environmental knowledge, consumers are becoming more receptive towards an eco-friendly or green product. So this inclination of the consumers leads towards the development of the green market. The green market is an emerging market, which fetches ample chances in every field such as green design, green supply chain, green production, and many more.

Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. Create a financial and management plan for your business.
2. Deliver an 'elevator' pitch to potential investors and customers.

Topics to be Covered

1. Students learned about eco-entrepreneurship.
2. Students are aware of how promoting green business would bring in more investors and business prospects.
3. The advantages of green business in forging ties with the community were made clear to the students.

About the Programme

Entrepreneurship is the process of wealth creation and individuals referred to as entrepreneurs create this wealth by being innovative. The traditional perspective described entrepreneurship in purely economic terms. Entrepreneurship is a sure way to bringing fulfillment to the aspiration of an individual, and a major weapon to curbing unemployment, poverty and underdevelopment problems in any country. Consequently, its importance to the economic wellbeing of an individual and family cannot be over-emphasized. Entrepreneurship is first and foremost a mindset of human beings, focused towards the generation or profitable ideas. Entrepreneurs are visionary, goal-driven, innovative individuals or teams that are oriented to developing a new business and making it a profitable one.

Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To understand the concept of innovation.
2. To understand the concept of Entrepreneurial Development

Topics to be Covered

1. Students will be able to define, identify and apply the principles of entrepreneurial and family business.
2. Students will be able to define, identify and apply the principles of viability of businesses, new business proposals, and opportunities within existing businesses.

Objectives:

1. To encourage the spirit of self-employment among entrepreneurs and develop small and medium enterprises.
2. To encourage new venture establishment and expansion of the existing ones in rural areas through designing special programmes.
3. To inculcate the entrepreneurial skills to potential entrepreneurs and help develop the same in existing entrepreneurs.
4. To enable the entrepreneurs to define or redefine their business objectives and work individually as well as in group for the realization of the same.
5. To make the entrepreneurs ready for unforeseen threats and risks associated with the business.

Learning outcomes:

1. Students will be able to define, identify and apply the principles of entrepreneurial and family business.
2. Students will be able to define, identify and apply the principles of viability of businesses, new business proposals, and opportunities within existing businesses.
3. Students will be able to define, identify and apply the principles of entrepreneurial management and growth through strategic plans, consulting projects and implementing their own businesses.
4. Students will be able to define, identify and apply the principles of preparing a start-up business plan emphasizing financing, marketing, and organizing.
5. Students will be able to define, identify and apply the principles of creating and defending an entrepreneurial marketing plan.

About the Institute

Sir. C. R. Reddy College of pharmaceutical sciences was started to prepare graduates in pharmacy to meet their ever increasing need in pharmaceutical industry, drug control, teaching and community pharmacy. The objectives of the college are to establish and maintain an outstanding professional education Programme, to teach the students to become effective pharmacy graduates to meet the needs of the profession, to preserve, augment and transit knowledge regarding drugs, drug products and health to conduct outstanding research and service Programme to keep pace with the widening knowledge base required for pharmacy graduates and to collaborate with industry and other health disciplines to produce quality medicines.

Sir.CRRCOPS runs the UG and PG courses like B.Pharm established in 2007, Pharm.D established in 2014 with 30 seats and M.Pharm in Pharmaceutical technology-18seats, Pharmacology-18 seats and Pharmaceutical analysis & quality assurance-18 seats.

About the Department

The Department of Pharmaceutical Analysis focuses on the development of analytical methods using novel combinations of time-tested methods and tools. The composition, stability, identity, and purity of excipients, raw materials, and active pharmaceutical components (API) are all the subject of this fundamental research. The department is actively involved in teaching and training post-graduate students in analytical sciences linked to qualitative and quantitative estimation of natural and synthetic chemicals in various matrices by application of spectroscopy, chromatography, and analytical methods.

About the Programme

The seminar will examine both theoretical and practical aspects, using interactive exercises and discussions to give participants practical insights into urgent issues, such as recent IP developments in India, the evolution of domestic IP laws to improve protection, the ongoing evolution of IP case law in India (especially in pharmaceutical cases), the necessary legislation to harmonise India's IP system with international standards, and current efforts to strengthen IP enforcement.

Objective of the Programme

The main objectives of Sir C. R. Reddy College of Pharmaceutical Sciences in organizing this event is

1. To address the lack of understanding of IPR
2. To combat the absence of deep learning, machine learning, and self-learning

Topics to be Covered

1. The pros & cons of relationship between IPR and the economy.
2. Providing space for Operation & Opportunities to the business for innovations
